Instructions

Issue

Topic   **Installation of BIS from downloaded ZIP files**

Description   Steps to install BIS from ZIP files downloaded from the online product catalogue.

1. Download all the ZIP files marked "mandatory". Each contains a folder called **_Install**.
2. Download the ZIP file for the language that you wish to install. This also contains a folder called **_Install**.
3. Unpack all these **_Install** folders into the same **_Install** folder.
4. You should obtain a similar folder hierarchy to the one illustrated, whereby your language folder may vary (here **1033_en** i.e. English).

5. With administrator rights, execute **setup.exe** in the **_Install** folder.
6. Follow the instructions given by the installation program and the Quick Installation Guide.
7. **IMPORTANT**: Only if you are using Access Engine with Day Models(*), download also `DayModelPatch.ZIP`

   (*) نماذج اليوم, Tagesmodelle, Modele dzienne, Modelos de dia, Модели дня, Gün Modelleri. After completing your BIS installation, follow the instructions in the Release Notes for BIS 4.6 to install this patch.
